## **EXAMINER'S AMENDMENT & ALLOWANCE**

### ***Response to Amendment***

1. This action is responsive to the Applicant's Amendment filed on 26 July 2004. The 1, 13 and 15 have been amended. Claim 3 has been cancelled. No new claims have been added. Claims 1, 2 and 4-20 are pending in the application.
2. Based on the Applicant's Amendment, the rejection of claim 13 under 35 U.S.C. 112, second paragraph, is withdrawn.

### ***Drawings***

3. The drawings filed on 13 February 2002 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

## **INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

### **Replacement Drawing Sheets**

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Art Unit: 2874

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

### **Annotated Drawing Sheets**

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

### **Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

### ***Response to Arguments***

4. Applicant's arguments, filed 26 July 2004, with respect to claims 1, 2 and 4-20 have been fully considered and are persuasive. The rejections/objections of claims 1, 2 and 4-20 have been withdrawn. The examiner agrees that the independent claims 1 and 15 have been amended to include subject matter not shown by the prior art. Claims 1 and 15, along with the claims that depend from them, are now allowable.

### EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

6. Authorization for this examiner's amendment was given in a telephone interview with Steven Koehler on 18 August 2004.

7. The application has been amended as follows:

Please amend claim 4 as follows:

4. (Currently Amended) Process for manufacturing an attenuation device according claim 1 ~~claim 3~~, characterized in that said portions of fiber comprise a portion of fiber with graded index and a portion of fiber in pure silica.

Please amend claim 8 as follows:

8. (Currently Amended) Process for manufacturing an attenuation device according to any one of claims 1, 2 or 4-7 ~~1 to 7~~, characterized in that it comprises the following stages:

expansion of the optical core of two fibers by assembly and fracture of a fiber with graded index and of pure silica;

metallization of the periphery and the end of said fibers;

insertion of a first and a second of said fibers facing each other in a capillary containing a liquid crystal;

adjustment of the distance between the ends of said fibers facing each other;

polymerization of said liquid crystal by ultraviolet radiation.

***Reasons for Examiner's Amendment***

8. The Examiner's Amendment was intended to clear up a claim dependency problems within claims 4 and 8. The Examiner's Amendment was not intended to change the scope of the claim. Claim 3 has been cancelled, so claim 4 and claim 8 could not properly depend from claim 3.

***Allowable Subject Matter***

9. Claims 1, 2 and 4-20 are allowed.

***Conclusion***

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin S Wood whose telephone number is (571) 272-2364. The examiner can normally be reached on Monday-Thursday (7am - 5:30 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney B Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
